**Course: Installing and Configuring Windows Server 2012**

*Exam: 70-410*

**Description:** With the Installing and Configuring Windows Server 2012 course, users learn the technical tasks associated with exam 70-410. Covering topics such as, configuring Hyper-V, installing and administering Active Directory, and server configuration and installation and more! Users will be provided with the knowledge they need to succeed.

**MARCH:**

**Course: Administering Windows Server 2012**

*Exam: 70-411*

**Description:** In LearnKey's Administering Windows Server 2012 course, users will gain the knowledge they need to take exam 70-411. Users will learn technical skills in Active Directory, servers, and group and network policies.

**Course: Managing and Maintaining Windows 8**

*Exam: 70-688*

**Description:** In Managing and Maintaining Windows 8 individuals will learn everything they need to know about supporting Windows 8 clients once the machines have been deployed and configured in an enterprise environment. This course is specifically designed to teach you how to analyze the environment and select the best means possible of deploying Windows 8. This course will prepare learners to pass exam 70-688.

**Course: Acrobat**

*Exam: ACE*

**Description:** LearnKey's Acrobat training course gives user the essential knowledge they need to utilize this versatile product in countless ways. Users will learn how to create PDFs from various applications, edit and manipulate pages, create forms, send PDFs to others to review, and much more.

**Also Being Released in 2014**

**Course: Configuring Advanced Windows Server 2012**

*Exam: 70-412*

**Description:** With our Configuring Advanced Windows Server 2012 course users will become familiar with technical functions such as, identity and access solutions, network services, and storage solutions. Upon completion of this course users will have gained the knowledge they need to successfully take exam 70-412.

**Course: Monitoring and Operating a Private Cloud with System Center 2012**

*Exam: 70-246*

**Description:** Get prepared for exam 70-246 with LearnKey's Monitoring and Operating a Private Cloud with Systems Center course. This course will prepare users for resource monitoring, maintenance and configuration management, and much more.

### **Course: Configuring and Deploying a Private Cloud with System Center 2012**

*Exam: 70-247*

**Description:** With LearnKey's Configuring and Deploying a Private Cloud with System Center course. Users will learn about, the infrastructure of the system center, the deployment and configuration of virtual machines and services. At the end of the course users will be prepared to take exam 70-247.

### **Course: Office 365**

*Exam: 77-891*

**Description:** LearnKey's new Office 365 course will guide users through the new world of Office 365. At the end of this course users will be able to, navigate the feature of Office 365, use Outlook for communication needs, and learn the features of Lync online and all other feature needed to be prepared for exam 77-891.

### **Course: Photoshop CC**

*Exam: Visual Communication with Adobe Photoshop*

**Description:** In the Adobe® Photoshop CC for Windows course you will learn how to adjust images, bypass cropping, and retouching using intelligent Content Aware scaling. Enjoy smoother rotation, panning, and zooming. Take your photos or digital art from good to fantastic by learning one of the most important features of Photoshop, "layer techniques."

### **Course: Premiere CC**
