

## 2019 Course Release Schedule

Updated 2/11/19

### February

#### Course: Adobe Photoshop CC 2018

*Exam: Adobe Certified Associate in Visual Design Using Adobe Photoshop CC (2018)*

Description: The Adobe Photoshop CC 2018 course is designed for both novice and advanced users preparing for certification. Using the concept of an outdoor magazine, the course demonstrates topics necessary for working in the design industry, setting up a project and customizing the user interface, organizing documents, creating and modifying visual elements, and publishing a final product. Mastering Photoshop is one of the most sought-after skills in today's competitive marketing and design job markets.

#### Course: AutoDesk AutoCAD 2019

*Exam: AutoCAD Certified User*

Description: The AutoCAD 2019 course will prepare you to sit for the AutoCAD Certified User exam by teaching you how to draw objects with accuracy and modify them after they are created, organize objects, reuse content from previous projects or other sources, annotate drawings, and set printing and plotting options to prepare your project for distribution. The AutoCAD 2019 course will not only prepare you for certification, it will help you learn the skills needed to compete in the computer-aided design job market.

### March

#### Course: Adobe Illustrator CC 2018

*Exam: Adobe Certified Associate in Graphic Design and Illustration Using Adobe Illustrator CC (2018)*

Description: The Adobe Illustrator CC 2018 course introduces both new and experienced users to Illustrator CC preparing the user for certification and improving their employability in the design industry. This course teaches the basics of working in the design industry including identifying an audience and their needs, communicating with colleagues and clients, and understanding copyright. You will also learn how to navigate, organize, and customize the application workspace; organize and streamline document workflows; create and modify text and graphic elements; and how to publish your project in web, print, and video formats.

#### Course: AutoDesk Revit Architecture 2019

*Exam: AutoDesk Revit Architecture Certified User*

Description: The AutoDesk Revit Architecture 2019 course will teach you how to create and modify grids, levels, walls, doors, etc. and then show you how to model and modify those elements. You will also learn how to manage views and create 3D renderings of your projects. Finally, the course will demonstrate how to manage documentation associated with your

projects. Not only will this course help you to master the skills you need to be competitive in the field of architectural design, it will prepare you to sit for the AutoDesk Revit Architecture Certified User exam.

Course: Android Certification with iOS

*Exam: AND-801*

Description: This course will introduce students to the concepts of building mobile apps specifically for the Android platform. The course features working with control flow statements, functions and object-oriented programming, using the Android Framework and Android Studio, creating user interfaces, styles, themes, menus, navigation, views, notifications, managing storage and storage providers, and integrating location-aware features. The course will prepare students to sit for the AND-801 exam and give them a competitive edge in the field of app creation and design.

Course: Word 2019

*Exam: MOS Word 2019 (exam number will be posted when available)*

Description: The Word 2019 course demonstrates how to use the software to create eye-catching resumes, well-formatted cover letters, engaging newsletters, and more. The course covers creating and managing documents; formatting text, paragraphs, and sections; adding tables and lists; creating and managing references; inserting and formatting graphical elements; and effectively collaborating on documents. Users will improve their overall employability while preparing for the Word 2019 certification exam.

## **April**

Course: AutoDesk Inventor 2019

*Exam: Inventor Certified User*

Description: The field of product and part design is ever-growing. The AutoDesk Inventor 2019 course will help you learn the skills needed to gain an edge in this exciting field. This course will teach you the basics of the user interface and how to successfully navigate the application. You will also learn assembly modeling, drawing, part modeling, and sketching. Mastery of these skills will prepare you to sit for the AutoDesk Inventor Certified User exam.

Course: Adobe InDesign CC 2018

*Exam: Adobe Certified Associate in Print & Digital Media Publication Using Adobe InDesign CC (2018)*

Description: The Adobe InDesign CC 2018 course teaches designing page layouts for both print and Web. The course uses a step-by-step approach to demonstrate the basics of the application and interface and then gradually moves on to more advanced and complex aspects of the software. Methods for efficiently performing common layout tasks using various tools and on-object controls are taught, as well as learning how to use formatting tools to produce high quality documents. With the goal of preparing a user for certification, the course follows the

exam objectives from working in the design industry to publishing your creation for web and print. Users who complete the course, whether seeking certification or not, will improve their employability and marketability in the design industry.

## **May**

Course: Adobe After Effects CC 2018

*Exam: Adobe Certified Associate in Visual Effects and Motion Graphics Using Adobe After Effects CC (2018)*
