Length: 3 Sessions / 10 Hours
IC3 Spark
Overview
LearnKey’s IC3 Spark course is focused on teaching younger students the basic foundational knowledge covered in LearnKey’s IC3 GS5 training. Join LearnKey expert Wyett Ihler for over 2 hours of online video training and project-based activities. Students will learn a broad range of computing knowledge and skills including: software, hardware, operating systems, key applications, and living online.

Expert: Wyett Ihler
Product ID #: 631789
Length: 3 Sessions / 5 Hours

MTA Cloud Fundamentals (98-369)
Overview
The MTA Cloud Fundamentals (98-369) course is a perfect starting point for those who want to learn about cloud computing, a computing method that is ever-increasing in popularity and is a career field in great need. This course helps with employability prospects in the fields of general cloud computing and support for Office 365 and Intune. The course will also prepare students for the 98-369 exam. Topics in this course include: understanding the cloud, enabling Microsoft cloud services, administering Office 365 and Intune, using and configuring cloud services, and supporting cloud users.

Expert: Jason Manibog
Product ID #: 631909
Length: 5 Session / 7 Hours

MTA Mobility and Device Fundamentals (98-368)
Overview
MTA Mobility and Device Fundamentals (98-368) is designed to prepare students to learn to accomplish the technical tasks required to pass exam 98-368. Students will gain an understanding of device configurations, security, cloud services, data access, and management. This exam is one step forward in earning a Microsoft Certified Solutions Associate (MCSA) certification.

Expert: Jason Manibog
Product ID #: 631699
Length: 5 Sessions / 11 Hours
MTA Windows Operating System Fundamentals (98-349)

Overview
The MTA Windows Operating System Fundamentals course (exam 98-349) has been updated to include Windows 10 features and delete any features from Windows 7 not supported in Windows 10. This is a perfect course for someone who wants to learn how to manage Windows 10 and gain the skills necessary to pass the 98-349 exam. LearnKey Senior Instructor Jason Manibog will take you through these Windows 10 topics: Understanding Operating System Configurations, Installing and Upgrading Client Systems, Managing Applications, Managing Files and Folders, Managing Devices, and Understanding Operating System Maintenance. This MTA certification is a precursor to an MCSA certification for Windows 10.

Expert: Jason Manibog
Product ID #: 631849
Length: 5 Sessions / 10 Hours
MTA Database Administrator Fundamentals (98-364)

Overview

MTA Database Administrator Fundamentals is the first step on the path to becoming a Microsoft Certified Database Administrator or Database Developer. This training course prepares students for Microsoft exam 98-364. MTA is a new entry-level credential from Microsoft that validates the foundational knowledge needed to take the first step toward building a successful career in technology. This MTA training will help you become familiar with concepts and technologies pertaining to Database Administration. In this course you will learn about relational databases, queries, stored procedures, and the security requirement for databases and the data stored in them. If a career in database administration is what you are looking for, then this is the first step on your certification journey. Expert Wayne Snyder guides you through each exam objective seamlessly, all the while preparing you for Microsoft exam 98-264. This course provides you with interactive videos that meet the needs of multiple learning styles from auditory to visual. The MTA Database Administrator Fundamentals eLearning course includes a pre test and post test that accurately identifies your skill gap. Snyder will come in and help you close the skill gap with content concentrating on each exam objective. Achieving MTA certifications is the first step toward becoming a Microsoft Certified Technology Specialist (MCTS).

MTA Security Fundamentals (98-367)
Overview
LearnKey’s MTA Security Fundamentals course is geared toward those looking to learn basic operating system security fundamentals. This course will also prepare students to take and pass the MTA Security Fundamentals exam (98-367). The four main topics covered in this course are: security layers, operating system security, network security, and security software. This course will also improve employability prospects for those trying to gain an entry-level IT support/desktop position with some basic security knowledge requirements.

Expert: Jason Manibog  
Product ID #: 152709  
Length: 4 Sessions / 8 Hours

Security+ (SY0-501)
Overview
This CompTIA certification course helps to prepare students to take and pass the SY0-501 Security+ exam and obtain the Security+ certification. This course is excellent for those looking to increase their employability prospects in security administration careers. Specific topics covered in this course include: security threats, attacks and vulnerabilities, tools and technologies, architecture and design, identity and access methods, risk management, and cryptography.

Expert: Jason Manibog  
Product ID #: 152769  
Length: 6 Sessions / 14 Hours
Bullying: You Don’t Have to Take it Anymore

Overview
Bullying is one of the most underrated yet enduring problems in schools today and is a reality in the lives of all children whether they are bullies, victims or witnesses. Students will quickly grasp what bullying is, when they should seek help, why bullies seek power and the different ways in which bullies attempt to intimidate and abuse their victims. Most importantly, this course discusses various options that can be taken by school officials, teachers, parents, students and bullies themselves, to put an end to this emotionally scarring phenomenon. Coming Fall 2019!

Expert: LearnKey Signature Courseware & Human Relations Media
Product ID #: 120749
Length: 1 Session / 1 Hour

Conflicts, Communications, and Relationships

Overview
This course offers students a chance to develop their communication skills in all types of relationships. A series of scenarios describe typical conflicts between friends, siblings, parents and children, and an employee and boss. A leading adolescent psychologist helps students understand the scenarios by showing how maximizing communication, listening, and mediation skills can help to resolve most conflicts. Students take turns figuring out what they would do to enhance the communication and resolve the conflict for each situation.

Expert: LearnKey Signature Courseware & Human Relations Media
Product ID #: 120769
Length: 1 Session / 1 Hour

Emotional Self-Control: Do You Have It?

Overview
National studies warn that many of today’s teens have failed to develop vital emotional abilities they will need to go through life. Some of these emotional abilities are handling conflict, planning ahead, resisting anxiety and learning to control hot-tempered reactions. Using real life scenarios, this program actually teaches students emotional self-control by showing them four basic ways to evaluate their own feelings and understand when they might be moving in the wrong direction. Coming Fall 2019!

Expert: LearnKey Signature Courseware & Human Relations Media
Product ID #: 120789
Length: 1 Session / 1 Hour
Expressing Anger: Healthy vs. Unhealthy

Overview
This course helps students identify inappropriate angry behaviors and learn new ways to cope with these strong emotions. Students will observe real teens participating in a workshop led by a clinical psychologist. After these teens act out the different ways we all express anger, students are challenged to identify their own styles of anger expression and are encouraged to examine why they express anger the way they do. Students are encouraged to find new and healthier ways to express their anger.

Expert: LearnKey Signature Courseware & Human Relations Media
Product ID #: 120809
Length: 1 Session / 1 Hour

Hurting With Words

Overview
This course is designed to raise awareness of a very real, yet often overlooked, form of abuse: emotional violence. Hurtful words include threats, bullying, and intimidation—anything which causes feelings of humiliation, fear, or worthlessness on the part of the victim. You’ll examine the causes of many different types of emotional abuse: men to women, husbands to wives, parents to children, adults to children, and group to group. At the conclusion of this course, you’ll be aware of many successful methods of dealing with verbally or emotionally abusive people.

Expert: LearnKey Signature Courseware & Human Relations Media
Product ID #: 120829
Length: 1 Session / 1 Hour
Better Business Communication

Overview
Do you feel that you have difficulty expressing your business goals in precise terms? This LearnKey course, based on the book Better Business Communication by Dr. Phillip Bozek can help you! Learn quick and easy techniques to improve all types of business communication, memos, letters, presentations and meetings.

Expert: Phillip Bozek
Product ID #: 061269
Length: 1 Session / 1 Hour

Better Business Writing

Overview
Discover the ten key techniques for effective communication that will help you grow more confident in your ability to express yourself clearly. Good business writing is as important as ever. This LearnKey course based on the book Better Business Writing by Susan L. Brock covers critical skills required for you to develop an impressive business writing style. You will recognize and correct problems, avoid redundancies, and define your communication goals.

Expert: Susan L. Brock
Product ID #: 061259
Length: 1 Session / 1 Hour

Entrepreneurship and Small Business

Overview
LearnKey’s Entrepreneurship and Small Business course is designed to prepare a student to sit for the Entrepreneurship and Small Business certification exam. The course provides scenarios and example questions to apply knowledge of fundamental entrepreneurship and small business management concepts. Topics covered include: defining an entrepreneur, recognizing an opportunity, starting and operating a business, how to market a business, managing sales, and basic financial management. The course is designed for a student who has taken a small business management class, but will prepare any student for the ESB exam.

Expert: LearnKey Signature Courseware
Product ID #: 063119
Length: 6 Sessions / 8 Hours
Leadership and Management

Excellence in Supervision
Overview
The Excellence in Supervision course from LearnKey gives new supervisors the tools and experiences to start on the right track and provides existing supervisors with practical and proven strategies for success. Discover the critical success factors supervisors need to create a positive, powerful, motivating environment for employees. With Excellence in Supervision, you can quickly learn and immediately apply the people skills needed to succeed.

Experts: LearnKey Signature Courseware
Product ID #: 071469
Length: 1 Session / 2 Hours

Giving and Receiving Criticism
Overview
Effective criticism made easy. Criticism is an essential component of growth and improvement. Learn to give and take criticism in ways that benefit the individuals involved, as well as your organization. This course will take you through a 3 step formula for successful criticism. Use these lessons to establish a spirit of cooperation and growth, and create a more effective organization.

Expert: Kantola
Product ID #: 061609
Length: 1 Session / 1 Hour

Handling Conflict and Confrontation
Overview
There's no escaping conflict in the workplace, at home, or with your personal relationships. Whenever diverse individuals work together, there are bound to be differences of opinion, miscommunication, and unwelcome criticism—even out-and-out confrontations. In this solution-based interactive media, you'll find proven tactics to help you defuse volatile situations and remain in control when tempers flare and emotions overheat.

Expert: Sharon Spano
Product ID #: 070119
Length: 1 Session / 2 Hours
How to Coach an Effective Team

Overview
In this results-focused, high-energy interactive media, you’ll discover the crucial coaching and leadership skills you need to mold a group of diverse individuals into a cohesive team of motivated, enthusiastic achievers. Coach Joe will inspire you to develop the leadership techniques that will encourage people to rise to new levels of performance. You will discover new communication approaches that will get everyone to pull together, while inspiring trust, commitment and respect.

Expert: Joe Gilliam
Product ID #: 070109
Length: 1 Session / 1 Hour

How to Supervise People

Overview
Managing, supervising - you could be the world’s greatest supervisor if only your employees would cooperate! There’s nothing more challenging than trying to achieve your goals through others. You have to be a manager, a psychologist and a den leader all in one. Now, effective leadership is within your reach, with this step-by-step interactive media course.

Experts: Donald P. Ladew
Product ID #: 070919
Length: 1 Sessions / 2 Hours

Managing a Diverse Workforce

Overview
You will learn how to build a workplace that is accepting, understanding, and respectful of all the differences seen in others. Learn to appreciate individual characteristics that coworkers bring to the mix. Employees will discover how to break through the stereotypes and prejudices that can prevent them from accepting the differences they see around them.

Expert: National Seminars & LearnKey Signature Courseware
Product ID #: 062049
Length: 1 Session / 2 Hours
Leadership and Management

Mentoring

Overview
Is mentoring right for you? You’ll find this interactive training course from LearnKey to be an insightful guide to better mentoring in today’s workplace and learn the skills of a competent, inspiring teacher. This course, based on the book Mentoring by Gordon F. Shea, explains the many styles of mentoring, how to understand mentee needs and what types of behaviors to practice and avoid.

Expert: Gordon F. Shea
Product ID #: 061119
Length: 1 Session / 1 Hour

Project Management Fundamentals

Overview
LearnKey’s Project Management Fundamentals course is an associate-level course in project management. This course is designed to introduce individuals to the concepts, processes, rules, and procedures to be an effective project manager. This course is great for someone just starting out in project management or someone who might be considering a career as a project management professional.

Expert: Dahlia Gelbaum
Product ID #: 202488
Length: 1 Session / 2 Hour

Quality Focused Supervision

Overview
Build morale and productivity through engaged leadership. Your managers will learn to build supervisory skills that maintain discipline and command respect, without creating resentment. This course will help your managers recognize their management strengths and weaknesses, and will provide a benchmark for their improvement.

Expert: Kantola

A+ (220-1001) Series

Overview
The first half of the A+ series takes you, a virtual new hire at a computer repair shop, through the hardware-related portions of the A+ certification series. Specific topics covered include: mobile devices, networking, hardware, virtualization and cloud computing, and hardware and network troubleshooting. The course also will help improve your employability prospects in the IT technician field, as this course has several hours of video, practice labs and tests for each domain, and a project workbook full of hands-on projects to help you prepare for the 220-1001 exam. This is the first of two exams needed to gain an A+ certification.

Expert: Jason Manibog
Product ID #: 104479
Length: TBA

A+ (220-1002) Series

Overview
The second half of the A+ series continues your journey as a virtual new hire at a computer repair shop, to where you will learn about the software-related aspects of being an IT technician, with heavy focus on operating systems, security, software troubleshooting, and operational procedures. Being employable means being able to support hardware and software issues, and this entire series, with the videos, practice labs, practice tests, and project workbook, will help you become more employable and for this course, help you prepare for the 220-1002 exam, the second of two exams needed to gain an A+ certification.

Expert: Jason Manibog

Length: TBA

Linux+ Part I (LX0-103)

Overview
In LearnKey’s Linux+ Part I (LX0-103) certification training course users will join LearnKey expert Michael Solomon as they learn about Linux+. This course will cover topics such as: GNU/UNIX commands, Linux installation, package management, devices, file systems/systems hierarchy, and more.

Expert: Michael Solomon
Product ID #: 590039
Length: 3 Sessions / 9 Hours
**Linux+ Part II (LX0-104)**

**Overview**
In LearnKey’s Linux+ Part II (LX0-104) certification and training course users will again join LearnKey expert Michael Solomon as they learn about Linux+. This course will cover topics such as: scripting, shells, data management, administrative tasks, desktops, user interface, networking fundamentals, essential system services, security, and more.

*Expert:* Michael Solomon  
*Product ID #:* 590079  
*Length:* 3 Sessions / 8 Hours

**MTA Networking Fundamentals (98-366)**

**Overview**
The MTA Networking Fundamentals (98-366) course is an excellent entry-level certification course for those looking to gain a network certification and increase employability prospects for any junior to mid-level networking career. This course covers, in detail, three networking aspects: network infrastructure, networking hardware, and protocols and services. This course is also a solid precursor to other networking certifications, most notably the CompTIA Network+ certification.

*Expert:* Jason Manibog  
*Product ID #:* 280789  
*Length:* 3 Sessions / 5 Hours

**MTA Windows Server Administration Fundamentals (98-365)**

**Overview**
The MTA Windows Server Administration Fundamentals (98-365) course is an excellent course for those looking to get an introduction to server administration. Presented as if you are being promoted to a junior server administrator, this course focuses on server installation, server roles, Active Directory, storage, server performance, and server maintenance. This course will help students gain employability skills in server administration, help to earn an MTA certification, and serve as a bridge to more advanced Windows Server courses and certifications.

*Expert:* Jason Manibog  
*Product ID #:* 280699  
*Length:* 6 Sessions / 9 Hours
Networking

Network+ (N10-007)
Overview
The Network+ (N10-007) course is an excellent course for those looking to gain employability skills in the area of network administration and gain the CompTIA Network+ certification. Specifically, this course covers the five domains on the N10-007 exam: networking concepts, infrastructure, networking operations, network security, and network troubleshooting. This course covers the material through the eyes of a brand-new junior network administrator, learning both what it takes to pass the exam and the real-life job skills necessary to succeed as a junior to mid-level network administrator.

Expert: Jason Manibog
Product ID #: 104369
Length: 5 Sessions / 12 Hours

Windows 8.1 Configuration (70-687)
Overview
In the Configuring Windows 8.1 course individuals will learn what’s new in the latest Microsoft operating system. Join LearnKey expert Tom Carpenter as he covers topics such as upgrading to Windows 8.1, remote access, mobility, and more! Once you understand the new features and changes in this operating system, you will see that it is a pleasure to work with.

Expert: Tom Carpenter
Product ID #: 684419
Length: 5 Sessions / 10 Hours

Windows Server 2012 Administrator (70-411)
Overview
Join LearnKey expert Jason Manibog as he takes you through the Windows Server 2012 Administrator course. Users will learn to manage and configure Active Directory, NPS infrastructure, and configuration file and print services. Users will also learn to deploy, manage, and maintain servers along with other skills and knowledge needed to be prepared to take exam 70-411.

Expert: Jason Manibog
Product ID #: 684159
Length: 5 Sessions / 10 Hours
Windows Server 2012 Advanced Server Infrastructure Implementation (70-414)

Overview
In LearnKey’s Windows Server 2012: Advanced Server Infrastructure Implementation course students will learn the skills required to design, implement, and maintain a Windows Server. Join LearnKey expert Jason Manibog as he prepares students to become competent in design, deploying, and maintaining a Windows Server 2012 infrastructure service. This course will prepare students to take exam 70-414.

Expert: Jason Manibog

ART of Customer Service

Overview
Excellence in customer service boils down to three basic ideas: give customers the attention they want, the respect they deserve, and the time to answer their questions and take care of their needs. This newly revised customer service video uses humorous scenes mixed in with first-person responses to tell viewers what customers really want. It seems so simple, yet today’s customers generally feel that service has gotten worse. Use this customer service video to bring the message home to your employees and make it stick: customer service is an ART.

B Careful When U Txt: The Dangers of Texting and Sexting

Overview
Cell phones have become indispensable gadgets for most of us. We use these devices not only to talk, but to keep track of schedules, email, search the Internet, chat online, and text our friends. It should come as no surprise, then, that some of us are sending, simply put, the wrong message. Perhaps not realizing the dangers inherent in cell phone use, we are putting ourselves—and others—at risk. The dangers these behaviors cause is real and comes in two main forms: physical and emotional. The physical dangers can come from activities like using a phone at a time or place that is unsafe or from allowing personal information to fall into the wrong hands. The emotional dangers arise when we inadvertently subject ourselves and others to harassment or shame. This course will teach responsible cell phone use and best practices, in fact, many of these practices are the same techniques used to make computer and Internet use safe. The fact is that cell phones are here to stay and their features are always evolving. This course empowers users to take and stay in control of their cell phone use.

Bullying and Respect in the Workplace

Overview
In five dramatic stories taking place in settings that range from a hospital to City Hall, victims and witnesses will see how to speak up and challenge a coworker’s mean-spirited behavior in a straightforward way that earns them respect. They’ll also learn they do not have to face this problem alone. If they are not comfortable challenging a bully on their own—or if they do speak up and the behavior continues—they can reach out to supervisors, HR or other designated resources to help resolve the issues. As for any bullies who may be watching: this video clearly shows that mistreating a fellow employee makes you look bad in the eyes of others and will not be tolerated in your workplace.

Business Ethics on the Job

Overview
The age-old “golden rule”—to treat others the way you would like to be treated—continues to be the cornerstone of ethical behavior. Seven essential business ethics that people should understand include integrity, loyalty, honesty, responsibility, empathy, confidentiality, and respect. In today’s competitive world, it is more essential than ever that people set themselves apart from the crowd. Business Ethics on the Job is designed to aid in the understanding of the basic ethics necessary for successful employment. By advising students of the fundamentals of business ethics, educators are preparing students for a long, fruitful, and enjoyable career.

Communication Skills for the Workplace

Overview
Although technology has made communication faster and more global than ever before, there is still nothing more important than the ability to listen, speak, and write with ease and confidence. Whether it’s talking with a co-worker or addressing an audience of thousands, expressing our ideas clearly is one of the most valuable advantages we can have in the career world. Good communicators have the power to share their ideas, persuade others, and get themselves noticed. The Communication Skills for the Workplace course teaches the techniques and provides tips and suggestions for becoming a powerful communicator.

Customer Service Counts

Overview
Viewers will enjoy the amusing story of two coworkers who start their day experiencing bad customer service as customers themselves. Comparing notes, they enter a friendly competition to see who can offer the best customer service that day on the job. As they demonstrate sales skills and handle rushed (even unhappy) customers, their fun rivalry reminds employees that customers are people too. And it makes the point to employees that their peers are counting on them as well. In fact, coworkers are also customers. Everyone has “internal customers” when helping other employees meet common goals. And every employee represents the organization when encountering outsiders, whether or not customer service is a major part of their job description.

Dealing with the Irate Customer

Overview
It’s hard to keep your cool when dealing with difficult or angry customers. After all, it’s only human to get defensive and fight back—or cave in and give them whatever they demand. What you need instead is a plan. The guidelines presented in this difficult customer video will help you calm angry customers. Once you bring them around, they’re more likely to work with you to find a resolution that solves their complaint yet is fair to your organization.

Digital Smarts: Behaving Ethically Online

Overview
Cyber ethics and respect for others online are critical skills to acquire for today’s connected teens. The message of this teen-centered video is that all students have a responsibility to behave ethically online and to know how to react when others behave in inappropriate ways. Teen hosts discuss the ethics of issues such as distributing unflattering pictures or posts aimed at harming someone’s reputation and the importance of respecting the privacy of others. They emphasize the importance of respecting the safety of others and becoming an upstander rather than a bystander when witnessing abusive behavior online. One teen gives a real-life account of the devastating effects of being cyberbullied. Student interviews expose the extent of plagiarism among their peers and student attitudes about plagiarism. The program details the differences between legitimate online research and plagiarism. Similarly, the differences between legitimate sharing online and piracy are clearly spelled out as are the ethical implications and legal risks of stealing someone else’s work.

Digital Smarts: Protecting Your Online Reputation and Safety

Overview
Cyber reputation, security and safety have become important topics for students to understand and master. This engaging video program encourages students to think critically about the opportunities and risks provided by their many digital devices. Real-life dangers from predators, spammers and identity thieves are revealed through teen interviews and accounts from experts in cyber security and safety. Students learn why it is important to choose passwords that are hard to guess and why they should not share their passwords with others. Students are challenged to think about ways that digital technology can be used to enhance or damage their reputations. Teens talk about how compromising photos and other postings online became part of their permanent digital footprint. The video provides specific advice about how to protect students’ privacy, security and online reputations. Coming Fall 2019!

I Was Cyberbullied

**Overview**
Program presents three real-life stories from kids who were targets of cyberbullying attacks and offers viewers practical suggestions for how to avoid being victimized by this new, rapidly-spreading type of bullying. Each story highlights important tips such as: only post the type of information online that you would be comfortable with others seeing; remember that once an email or photo is posted online, you can’t take it back; avoid responding to vicious texts or emails that might escalate a situation further; and know when to turn to a trusted adult for help. Renowned “bully coach” Joel Haber leads a discussion on how serious and damaging cyberbullying can be, and touches upon recent cases of children committing suicide after being cyberbullied. This timely program will strike a chord with all viewers—those who may have been victimized as well as those who may have thought that cyberbullying was “no big deal.”

Leadership at Every Level

**Overview**
This leadership training video begins by demonstrating four successful management styles: direction, influence, collaboration, and delegation. It then explains how your setting and your subordinates determine which management style is most appropriate for your situation -- and the need to adapt to changing circumstances. Our dramatic scenes help you recognize leadership behaviors at all levels of an organization. You’ll learn how to exhibit leadership by making good decisions and keeping your own emotions under control. And you’ll learn the critical importance of personal integrity. Leadership takes more than good management. And there’s no better time than right now for you to take it to the next level.

Making a Good Impression: Resumes, Interviews, and Appearance

Overview
Whether you are looking for a part-time job, a full-time summer job, or the beginning of a career, you must master certain skills in order to be successful. And once you’ve landed the job, what then? Even after impressing the employer with a good resume or a strong interview, you must understand basic workplace etiquette and proper employee behavior in order to keep the job that you worked so hard to attain. The Making a Good Impression: Resumes, Interviews, and Appearance course aims to prepare job-seekers for the challenging and exciting world of employment by guiding them through the steps of the job search. The course follows several young people as they start new jobs, from discovering openings to writing resumes and cover letters to interviews and follow-ups. Along the way, important employee skills will be stressed.

Matching Your Skills, Talents, and Ambitions to a Dream Career

Overview

“Find your passion” is the mantra of guidance counselors and graduation speakers in schools across the nation. The first step in any job-seeker’s career map to success is figuring out their own unique skills and talents. The best jobs are those that are interesting and challenging, and also allow employees to use their aptitudes and abilities to the fullest. Job-seekers wonder if there is a formula for finding that magic combination. One variable in that magic equation is exploration—exploration is an essential tool for any career map. The wider a net that students cast in the sea of career opportunities, the better chance they have of finding jobs that truly inspire them. The Matching Your Skills, Talents, and Ambitions to a Dream Career course outlines several strategies that job-seekers can use to create a personal career map. Through expert advice and real-life examples of young people happily employed in their dream careers, vital career lessons will be learned: how to examine talents, how to connect findings to a dream job, and how to map out a path to achieving goals of career success.

Social Media at Work

Overview
Social media is everywhere—including our workplaces. While it can serve useful business purposes, it can also open the door to hackers, circulate rumors and abusive comments, create public relations nightmares, and be a real drag on productivity. In fact, many employees spend up to two hours every workday on non-business related websites—often not realizing how their multiple side-trips can consume their time and lead to other problems, as well. And it’s not just during the workday. After-hours posts can also have an impact if they violate policies or cause friction between coworkers.

What is Your Attitude? Getting in the Mood to Work

Overview
In today’s competitive job market, employers say that attitude is the most important factor in their hiring process. Yet many of today’s job-seekers have difficulty maintaining the kind of attitude that goes over well in the workplace. Now more than ever, job-seekers must be prepared to be competitive not only in order to gain a job, but also as a prerequisite for keeping a job. In addition to a positive professional attitude, today’s employers demand a great deal of productivity from their employees—high-quality work, speedy task-juggling and focused effort are all crucial for a company to be profitable. It is essential that job-seekers realize that it is their attitude in the long run which will affect their performance in all aspects of their professional life. The What’s Your Attitude?: Getting in the Mood to Work course will help you establish a positive attitude.

Workplace Ethics

Overview
Ethics matter. It’s not just the big scandals you see in the news, but the small everyday decisions that add up, too. In fact, that’s where you need to draw the line—with the little things—before serious damage is done. This award-winning employee ethics training video follows four realistic scenarios that demonstrate the importance of basic values such as respect for others, fairness, and honesty. And it teaches a three-part decision-making process that helps employees find their way to a solution even in complex situations where the right answer doesn’t come easily. Employees all share the responsibility to act ethically and to speak up if they see coworkers behaving badly. Use this employee ethics training DVD or online video to raise awareness, provide a framework for ethical decision making, and help create a company that employees can be proud of.

Workplace Etiquette: Why Being Polite Counts on the Job

Overview

Studies by Harvard University, the Carnegie Foundation, and the Stanford Research Institute have concluded that success in getting, keeping, and advancing in a job depends 85 percent on people skills and only 15 percent on technical knowledge and skills. Qualifications are important, but most decisions come down to our relationships with others. A polite, professional manner is a key component to one’s success, and the Golden Rule of treating others as one would like to be treated pays big dividends in the business world. The good news is that people skills can be learned. Encouraging job-seekers to adopt a courteous mindset will carry over into every aspect of their career and will greatly boost their chance of success. The Workplace Etiquette: Why Being Polite Counts on the Job course teaches viewers what employers expect in terms of professional and respectful behavior. Humorous scenarios highlight different areas where workplace etiquette is a must—appearance, punctuality, communication, respecting privacy and boundaries, gossip, proper use of time at work, conflict management, and responding to criticism.
