

2020 Release Schedule (through end of Q3)

Updated 5/8/20

2020 Released Courses

Course: AutoDesk Inventor 2019

Exam: Inventor Certified User

Description: The field of product and part design is ever-growing. The Autodesk Inventor 2019 course will help you learn the skills needed to gain an edge in this exciting field. This course will teach you the basics of the user interface and how to navigate the application successfully. You will also learn assembly modeling, drawing, part modeling, and sketching. Mastery of these skills will prepare you to sit for the Autodesk Inventor Certified User exam.

Course: Adobe Animate CC 2018

Exam: Adobe Certified Associate in Multiplatform Animation Using Adobe Animate CC (2018)

Description: The Adobe Animate CC 2018 course teaches users what to expect when working in the animation industry, such as how to create, manage, organize, and customize documents and the application interface; how to create and modify multimedia elements and animations; and how to publish content for the web and screen. Users will learn what they need to know to prepare for a career in the animation industry, all while learning what they need to know to sit for the certification exam.

Course: Communication Skills for Business (CSB)

Exam: Communication Skills for Business (CSB)

Description: The LearnKey Communication Skills for Business (CSB) course will help both students in school and adults in the workforce learn basic communication principles, plan for effective communication, discover best practices for business deliverables, hone message delivery, receive communications, and analyze communication scenarios. Effective communication is vital in interviews, presentations, and daily verbal and written communication. Whether you are searching for new employment or are a seasoned employee, communication skills can enrich your professional presence. This course is mapped to the Communication Skills for Business (CSB) certification exam objectives and will help you prepare to sit for the exam.

Course: Azure Fundamentals (AZ-900)

Exam: AZ-900

Description: LearnKey's Azure Fundamentals (AZ-900) course provides a fundamental introduction to cloud services with an emphasis on Microsoft Azure. The course serves as an

excellent stepping stone to learning Azure further as it will prepare students for the AZ-900 exam, a Microsoft exam on Azure Fundamentals. Specific topics covered in this course include cloud concepts, core Azure fundamentals, security, privacy, compliance, trust, pricing, and support. This should be the first course for anyone aspiring to improve their employability prospects for any Azure Administrator, Developer, or Data Analyst career path.

Course: Certified Network Associate (200-301)

Exam: 200-301

Description: This course is geared toward entry-level and burgeoning Cisco network administrators and covers the material on the brand new, all-in-one Cisco CCNA exam. Topics covered include network fundamentals, network access, IP connectivity, IP services, security fundamentals, automation, and programmability, with an emphasis on configuring and verifying aspects of routers and switches. The material in this course both maps to the 200-301 exam and boosts the employability prospects for those looking to become network administrators.

Upcoming Releases - Q2-2020

Course: After Effects CC 2018

Exam: Adobe Certified Associate in Visual Effects and Motion Graphics Using Adobe After Effects CC (2018)

Description: Adobe After Effects joins the ACA slate of exams in 2018. LearnKey's After Effects CC 2018 course will guide you through the basics of working in the visual and motion graphics industry—creating and setting up a project; navigating, organizing, and customizing the application interface; organizing video projects; creating and manipulating visual elements; and exporting your project to various digital media formats. This course will not only prepare you for this exciting new certification, but it will give you an edge in employability as you seek to land your dream job.

Course: Word 2019 Expert

Exam: Microsoft Office Specialist Word 2019 Expert (MO-101)

Description: Microsoft Word 2019 Expert builds on the Word 2019 course and readies one for the Word 2019 Expert exam. Skills taught are important for employability in today's digital world and include: managing options and settings, advanced editing and formatting, custom document elements, and advanced Word features such as forms, macros, and mail merges. These skills offer crucial time-saving features for anyone looking to improve on their Word skills.

Course: Excel 2019 Expert

Exam: Microsoft Office Specialist Excel 2019 Expert (MO-201)

Description: Microsoft Excel 2019 Expert builds on the Excel 2019 course and readies one for the Excel 2019 Expert exam. Many of the skills taught in this course showcase time-saving tips and data analysis skills, which are crucial for employability in many industries. Topics covered in this course include: managing options and settings, managing and formatting data, advanced formulas, macros, and advanced charts and tables.

Upcoming Releases - Q3-2020

Course: Android Certification with iOS

Exam: AND-801

Description: This course will introduce students to the concepts of building mobile apps specifically for the Android platform. The course features working with control flow statements; functions and object-oriented programming; using the Android Framework and Android Studio; creating user interfaces, styles, themes, menus, navigation, views, and notifications; managing storage and storage providers; and integrating location-aware features. The course will prepare students to sit for the AND-801 exam and give them a competitive edge in the field of app creation and design.

Course: Access 2019

Exam: MOS Access 2019 (exam number will be posted when available)

Description: Access 2019 demonstrates how to manage databases, create and modify tables, create and modify queries, modify forms in Layout view, and modify reports in Layout view. The course will add to the skillset of both new and experienced users. Users will improve their overall employability while preparing for the Access 2019 certification exam.

Course: Microsoft Azure Administrator

Exam: AZ-104

Description: This course is for those looking to become Azure administrators and earn the Azure Administrator Associate certification. Specific topics covered include: managing Azure subscriptions and resources, implementing and managing storage, deploying and managing virtual machines, configuring and managing virtual networks, and managing identities.

Course: Microsoft Azure Developer

Exam: AZ-204

Description: This course is for those who want to become Azure solution developers. These solutions include: Infrastructure as a Service (IaaS), Platform as a Service (PaaS), Azure storage solutions, and Azure security solutions. Students will also learn how to monitor, troubleshoot, and optimize solutions and be able to connect to and consume Azure and third-party services. This course will help one pass the exam for the Azure Developer Associate certification.

Course: Microsoft Azure Security Technologies

Exam: AZ-500

Description: This course is for those who want to become Azure security engineers and, specifically, those who want to obtain the Azure Security Engineer Associate certification. Specific topics covered include: managing identity and access, implementing platform protection, managing security operations, and securing data and applications.

Update on Q4 releases will be here in June.
